Summary

Full Stack Developer with 3+ years of experience building scalable web applications using the MERN stack. Proven track record of improving performance, user engagement, and system efficiency through optimized frontend architecture and seamless backend integrations.

Experience

Freelance Web Developer

Self-Employed | Feb 2024 – Present

- Architected and delivered 5+ MERN stack apps for diverse clients, achieving 100% on-time delivery.
- Optimized frontend performance, reducing average load times by 30% via code splitting and lazy loading.
- Implemented modern UI/UX practices, measurably improving client satisfaction across all engagements.

Software Developer

Radical Minds Technology Pvt. Ltd., Gurgaon | Apr 2022 – Dec 2023

- Led frontend development of a SaaS platform in React + TypeScript, acquiring 100+ users within the first month.
- Increased user engagement by 25% through interactive UI components and optimized API integrations.
- Reduced debugging time by 40% by implementing Redux-based state management across the application.
- Boosted team productivity by 40% by standardizing Git workflows and collaboration processes.
- Engineered frontend for a quality management system, cutting client workflow processing time by 20%.

UI Developer

SM Web Solutions Pvt. Ltd., New Delhi | Oct 2020 – Feb 2022

- Developed responsive React apps, reducing mobile bounce rate by 20% across 10+ client projects.
- Improved overall application responsiveness by 15%, enhancing user experience and session duration.
- Delivered custom UI solutions for all client projects, achieving 100% client satisfaction rate.

Projects

Real-Time Chat Application — MERN + Socket.io

- Built a scalable real-time chat system with anonymous auth supporting concurrent users at sub-100ms latency.
- Integrated Socket.io for low-latency messaging and Passport.js for secure session-based authentication.

Creative Agency Portfolio — React + TypeScript

- Developed a fully responsive portfolio with Framer Motion animations, cutting content update time by 80%.
- Integrated Supabase for backend content management and storage, eliminating a custom backend server.

Skills

Languages: JavaScript, TypeScript, HTML5, CSS3

Frontend: React.js, Redux, TailwindCSS, Framer Motion

Backend: Node.js, Express.js, REST APIs, Socket.io

Databases: MongoDB, MySQL, Firebase, Supabase

Tools: Git, AWS (Basics), Postman, JIRA, Figma
